WILL & DISPATCH AT SITTING OF HOUSE

The Government will hurry matters on the assembly of Dominion Parliament.

(Bulletin Special Dispatch.)
Ottawa, Jan. 28.—It is learned officially that there will be no delay on the proceedings of the House of Parliament after it meets on March 15th, because of the necessity for clearing a space in the Chamber.

The speaker will be elected on Thursday as well as the holding of the opening ceremonies, and on Friday the debate on the address will be proceeded with. The Government is anxious to lose as little time as possible.

HON. CLIFFORD SIFTON

Has Been Offered the Nomination in the Thunder Bay and Rainy River Constituency.

(Bulletin Special Dispatch.)
Ottawa, Jan. 27.—Hon. Clifford Sifton has received resolutions passed by Liberal executives in different centres of the constituency of Thunder Bay and Rainy River, unanimously offering him the nomination of that riding on account of the services rendered Canada, especially in Western Canada and because of his progressive policy of immigration and filling up of vacant lands in the west. Mr. Sifton has not yet replied.

LIVE STOCK CONVEN- TION

The live stock convention in the Gariepy hall on Tuesday afternoon was largely attended. Donald Ross acted as chairman. The meeting was addressed by Geo. Harcourt, inspector of Territorial fairs and institutions, by Dr. A. G. Hopkins, and by Dr. C. D. McGilvray. Mr. Harcourt explained the Horse Breeders' Ordinance in an instructive and able manner. Dr. Hopkins next dealt with the score card for beef cattle. This address was able, interesting and instructive, and showed, as indeed did each of the three speakers, a splendid grasp of the subject. The score card as used for the judging of cattle and as Dr. Hopkins proceeded with his lecture, each of those present had a score card which added materially in the understanding of the address. In place of live animals, charts were used, in judging a beef after a total of one hundred points are adjudged thus: general appearance, 40 points; head and neck, 7 points; forequarters, 6 points; body, 32 points; hindquarters, 13 points. Under the general appearance are weight, 6, form 10, quality 10, condition 10 and style 5 points. The form should be deep, broad and fairly square and the outline and underline should be straight. Quality, firm handling, with fine hair, pliable skin, dense bone. The flesh should be evenly distributed. Condition, deep, even covering of firm flesh, especially in the regions of valuable cuts. The style, active and vigorous, but not restless; showing strong character. The seven points apportioned to the head and neck are given one each to the muzzle, eyes, ears, forehead, ears, horns and neck. The muzzle should be broad, the nostrils and mouth large, jaw wide. The eyes large, clear, placid and prominent; the face bright with a quiet expression; the forehead, broad and full; the ears, medium size and of fine texture; the horns or fine texture, oval and of medium size and the neck thick and short, and the throat clean. To the six forequarters the eight points are apportioned thus: shoulder vein, 2; shoulder, 2; brisket, 1; dewlap, 1; ribs, 2; 2 1/2; the shoulder vein should be full; the shoulder covered with flesh, compact on top and smooth; the brisket advanced, with wide breast. The dewlap skin should not be too loose and drooping, and the legs should be straight and short, the arm full, and the shank and smooth. Thirty-two points are proportioned to the body as follows: chest, 4; ribs, 8; back, 10; loin, 8; and flank 2. The chest should be full, deep and wide, the girth large and the crops full; the ribs long, arched and thickly fleshed; the back, broad, straight, smooth and even; the loin, thick and broad, and the flank full and even, with the underline. The thirteen points given the hindquarters are distributed as follows: hips, 2; rump, 2; pin bones, 1; thighs, 2; twist, 2; purse, 2; and legs 2. The hips should be smoothly covered, the distance apart in proportion to the other parts; the rump should be long and wide particularly, the tail head smooth, not patchy; the pin bones should not be prominent, but should be far apart, especially in cows; the thighs should be full, deep and wide; the twist deep and plump; the purse, full, indicating fleshiness; and the legs rather straight, short and smooth.

Dr. Hopkins also exhibited and explained a diagram showing the retail method of cutting beef, showing the Winnipeg prices of the various parts. Another chart showed the wholesale method of cutting beef in Chicago.

An opportunity was then given to ask questions and a conversation on points of great general interest was carried on.

Dr. McGilvray then explained and illustrated by means of a diagram, the use of the score card for draft horses.

GENERAL HOSPITAL NOTES

At the annual meeting of the Ladies' Aid Society, held at the General hospital on Jan. 12th, the following officers were elected: President, Mrs. Garipey. Treasurer, Mrs. Wilfrid Garipey. Secretary, Mrs. Beck. Board of Management—Mrs. Large, Mrs. J. Kelly, Mrs. Gallagher, Mrs. McKenney and Mrs. Cheater. The treasurer's report was: Balance in bank, \$415. Money, provisions and members fees, \$435.85. St. Albert, Strathcona, and Port Saskatchewan, \$209.75. Total receipts, \$649.75.

NATURAL GAS WELLS

That this district is underlaid with an almost inexhaustible supply of natural gas is evidenced by some of the gas wells which were sunk by the government a number of years ago, still producing this gas in practically undiminished quantities.

When the H. A. Conroy treaty payment party passed the wells near the Pelican portage on the Athabasca river, during their recent trip to the north, the gas was burning with a large flame, which darted, tongue shaped, twenty feet into the air. The pressure remains the same as when seen by a member of the party in 1899. This well is about 900 feet deep and during the sinking of it, a spring was tapped deep in the earth. The enormous force of the natural gas in seeking an outlet forced up the water. When the government ceased operations, the six inch pipe was plugged seemingly securely. However, the water is being forced out around the plug and about a foot of clear space intervenes from the water to the flame of the burning gas.

The flame is particularly bright and at night beautifully illuminates the opposite bank of the river, which is here over three hundred yards wide. The smallest objects on the bank can be distinguished as by daylight. The roar of the escaping gas can be heard a mile away, and the heat is so excessive that it is almost impossible to approach within ten feet of it. For twenty feet around the pipe the ground is dry and hot.

When the well was sunk by the government about eight years ago, the force of the gas when struck was so excessive that it drove out the 900 feet of boring poles as well as the thousand pound sinker. The gas has since been escaping with practically undiminished pressure.

STRATHCONA CONSTITUENCY

The Liberals of Strathcona constituency have been fortunate in securing P. Talbot, M. L. A., for Lacombe, as their standard bearer in the approaching election contest. It is most important to assess, and still more important after the election has been won, that the candidate should be thoroughly and creditably representative. This is the case in a very marked degree in the present instance. The constituency is essentially agricultural. Mr. Talbot is a farmer, and a successful one; a man who has made a name and place for himself in farming operations, to his own benefit, and also to that of the farming community in general. Although he has not busied himself in politics, when the new local constituency of Lacombe was formed, Mr. Talbot was elected as its first representative by an overwhelming majority over his opponent, who was a man of more than ordinary ability. It is on his record as a member of the Territorial Assembly that he received the unanimous nomination of the convention for the seat in parliament.

In this case it is only fair to point out that the office seeks the man and not the man the office. Neither Mr. Talbot nor his friends desired the nomination, or worked for it in any way. But when it became apparent that he was the man to shoulder the responsibility, he accepted it. The announcement of public meetings to be addressed by him, which has already been made, shows that he has not accepted the honor without also accepting the hard work.

But Mr. Talbot cannot secure his own election. It is for him to do his part, as he is doing. It is for his friends and the friends of the cause which he represents, to do theirs, as no doubt they will. Mr. Talbot's candidature stands for the progress of the Territories—the progress that has been achieved in recent years, and the further and greater progress that is looked for in the future. The policy which Mr. Talbot supports is the policy of western development as the best means of ensuring eastern prosperity. It is the policy of nationalism as opposed to the policy of sectionalism. The policy of fair dealing and fair opportunity for the west, as opposed to the policy which would forever keep the western tribute to railway and manufacturing monopoly. Mr. Talbot stands for a condition of progress, as compared with a condition of stagnation. This is a light in which Mr. Talbot is not more interested than any other elector of the constituency. It is a contest in which all have a vital interest and in which every man should do all he can to win.

THE NEW COUNTIES

The Bulletin has received from Regina a blue print map, showing the boundaries of a number of the new municipal districts which came into existence on Jan. 1st. The map covers the country from the north line of township 56, between Millet and Wetzakivik, and the north boundary of township 60, which crosses the Landing trail about half way to the Landing. The general idea seems to be to divide the country into blocks of four townships. The several base and correction lines, which are twelve miles apart generally speaking from the north and south boundaries of the new districts, show the boundaries are accommodated to the river. The 12th, 14th, 15th and 16th base lines and the 12th, 14th, 15th and 16th correction lines are north or south boundaries of all districts except as above mentioned. From east to west there is greater variation. In most cases the districts are only twelve miles from east to west, but sometimes they are eighteen, and where they adjoin the 5th meridian, are sometimes more.

Edmonton, St. Albert and Horse Hills are in one district. The south and east boundary is the river, the

west boundary, the line between ranges 25 and 26, and the north boundary the 14th correction line. It includes townships 52 and 53, in ranges 24 and 25, and those parts of township 52, range 25, and 53 and 54, range 23, lying west of the Saskatchewan River.

Strathcona is in the district which comprises townships 51 and 52, ranges 23 and 24, and that part of 25 east of the river.

The southern part of the village of Fort Saskatchewan, and Agricola, East Clover Bar and Clover Bar settlements are included in the one district, which comprises townships 53 and 54, range 21, 22, and that part of 23 lying east of the river.

Stoney Plain settlement is cut into four parts by the 14th base line and the 5th meridian.

Morinville, Namsu, Duagh and Bon Accord are in the one district, which includes townships 55 and 56, ranges 24 and 25.

Riviera Qui Harro and Egg Lake are in a district which includes townships 55 and 56, ranges 26 and 27.

Ray, Villeneuve, Spruce Grove and

Glory Hills are in one district, which comprises townships 53 and 54, ranges 26 and 27, in which also is included the Michel Callihan Indian reserve.

The northern part of Fort Saskatchewan, Bruderheim and Star are in one district, which includes townships 55 and 56, ranges 19, and 20, and those parts of 21 and 22 lying east of the Saskatchewan River.

The map gives no numbers or names of the districts so that they are not convenient for identification.

ALBERTA BRANCH R.C.C.C.

move in the direction of encouraging and establishing good sport in the Northwest was made on Saturday afternoon, when the Alberta curlers organized here a branch of the Royal Canadian Curling Club.

This means that in future the sporting world will look toward two great Western hotspots, one in Manitoba and one in Alberta.

The large attendance and great success which marked the banquet in this city last week, made the curlers of this district realize, as never before, the possibilities for good sport right in their own territory, and their organization on Saturday was the first result of this feeling.

The new club will be known as the Alberta branch of the Royal Canadian Curling Club and the rules of the Manitoba branch, with which the Territories until now have been affiliated, will be adopted. Any club in the Territories, Manitoba or British Columbia is to be eligible for membership.

Delegates were present from Calgary, Edmonton, Banff, Pelly, Golden and Lacombe.

Williamson Bros. shipped a car of 151 boxes to Calgary on Tuesday. They intend shipping four cars to Calgary on Tuesday next.

Herald, T. Yates, formerly with D. J. Young & Co., of this city, has come to Edmonton, where he has accepted a position.

A practice of the Edmonton Operatic and Dramatic Society will be held next Tuesday evening in the school-room of All Saints church.

C. T. Daykin has announced himself a candidate for the Legislative Assembly for the seat to be vacated by Peter Talbot, M. L. A.

S. H. Coward has joined the Alberta college staff. He teaches elementary and advanced book-keeping and elementary work in other subjects.

Great interest is being taken in the hockey match, Edmonton seniors vs. Strathcona seniors, on Thistle rink, Edmonton, tonight. The game commences sharp at eight o'clock.

Hockey match, Edmonton and Strathcona seniors. The second game in the series for the Petersen cup on Thistle rink, Edmonton tonight, commencing at eight o'clock sharp.

At the rink last night in the Blue Ribbon cup competition, the defeated Mats by a score of 15 to 8, and Bellamy defeated Lauder by a score of 17 to 1.

At the special council meeting on Tuesday afternoon, the question of street naming and house numbering was taken up. Councillor May reported having gone into the matter especially on his recent visit to Calgary and announced that he would submit a plan to the council at an early date.

Times, Greenwood, B. C., Jan. 22. A. W. English, of the Cunningham Electric company, returned to Greenwood on Wednesday, accompanied by Mrs. English. Although Mr. English's company is doing a large business in Edmonton, he has decided to reside here for some time. The Northwest winter has been much more severe than that of the boundary.

Mr. Theo. Daly, Clover Bar, has received a communication from Wm. Hutchinson exhibition commissioner, acknowledging the receipt of a small box of oats, of a very fine sample, which yielded 140 bushels to the acre. The commissioner states that the government has a very fine collection of agricultural products for the St. Louis exhibition and that Western Canada will be well represented. Mr. Daly was requested to forward any other choice samples of grain he might have.

The Alberta Poultry and Pot Stock Association held a large and successful meeting on Monday evening at the Commercial Hotel. The association expects to have a great show on February 1st and 2nd. All entries must be made to the secretary not later than the evening of the 10th. Parties exhibiting cats, dogs or other animals are particularly requested to see that their exhibits are secure, nailed or boxed up. The next meeting of the association will be held on Friday evening, Feb. 12th, in the hall, Strathcona, when final arrangements for the show will be made. It is hoped that the members will turn out in good numbers as they did last Monday.

Three institute meetings were held yesterday morning, afternoon, and evening, addressed by Geo. Harcourt, president of Territorial fair association, by Dr. Hopkins, and by Mr. McGilvery. In the morning a practical stock judging contest was held in the Masses near house. In the morning the contest gave a very interesting and instructive address on Dairy Cows. Their Care and Breeding, and pointing out judging cattle in the afternoon. Mr. McGilvery delivered a very able lecture on horse judging. Several teams and horses had been secured and the work under discussion illustrated. A very interesting feature of the afternoon session was a practical school of instruction on judging horses. A number of the men had seen them and they were taught the use of them in actual practice. The evening meeting was very largely attended and the addresses were listened to with very marked close attention. A more extensive report of these meetings will appear in a later issue of the Bulletin.

RUMOUR

Would have it that all the experience we have had in photography was gained in Edmonton!

The Idea!

Where such a thought was fathered (or mothered) we know not, and do not care to guess!

Our experience extends over a period of 7 years—a most vital period concerning present day photography, and has been gained largely in Toronto, than which there is no more up-to-date Canadian City in all lines. Many are the new means of producing the present day artistic photos that have been originated and proven valuable during three years. But, don't let us elaborate on our abilities, come along and see for yourself.

We have furnished (in an already much approved manner) the cosiest and best appointed studio in Northern Alberta. You will be happy to pay us for the kind of work we can do for you. Costs you nothing until you are satisfied—if you are at all doubtful.

Our studio is opened at last and already we are not waiting for business—WE ARE DOING IT.
